FOUNDER'S MESSAGE

I need to speak that such a time is slouching towards us as we have not yet identified it and we don't know what other jobs will exist according to future needs. We can easily understand that time will change all modules and methods. Entire human race is undergoing a big change. As an institution, we all evolve beyond providing education and handing over certificates and degrees. Teachers ensure that students are harnessed with the skills needed for the future. Pedagogical innovations are in routine, thinking over national and global levels.

Today we are living in an era of rapid flux and baffling complexities. Students are taught the original aspect of humanity that transcends human soul irrespective of gender, race, color, caste, creed and religion.

Human race is one. For collective growth, oneness of mankind must be nurtured in individuals' mind. We educate our students in such a way as they realize oneness of mankind. A student's life will be adjudged according to his meaningful adjustment in the society which is the ultimate aim of education.

Being educated in real sense is being human in true sense. This is the essence of quality education.

At last, I would say that education does not mean piling of information and worldliness only, but to attain wisdom- a light, that does a lot for the sake of mankind. Here at lucknow public college of professional studies, strenuous efforts are made by skilled educators to ensure the totality of education."

They remained focused on our goal of impacting our state at large through graduates from a diverse background ethnically, linguistically, and socio-economically, who would serve our communities with passion, compassion, and excellence.

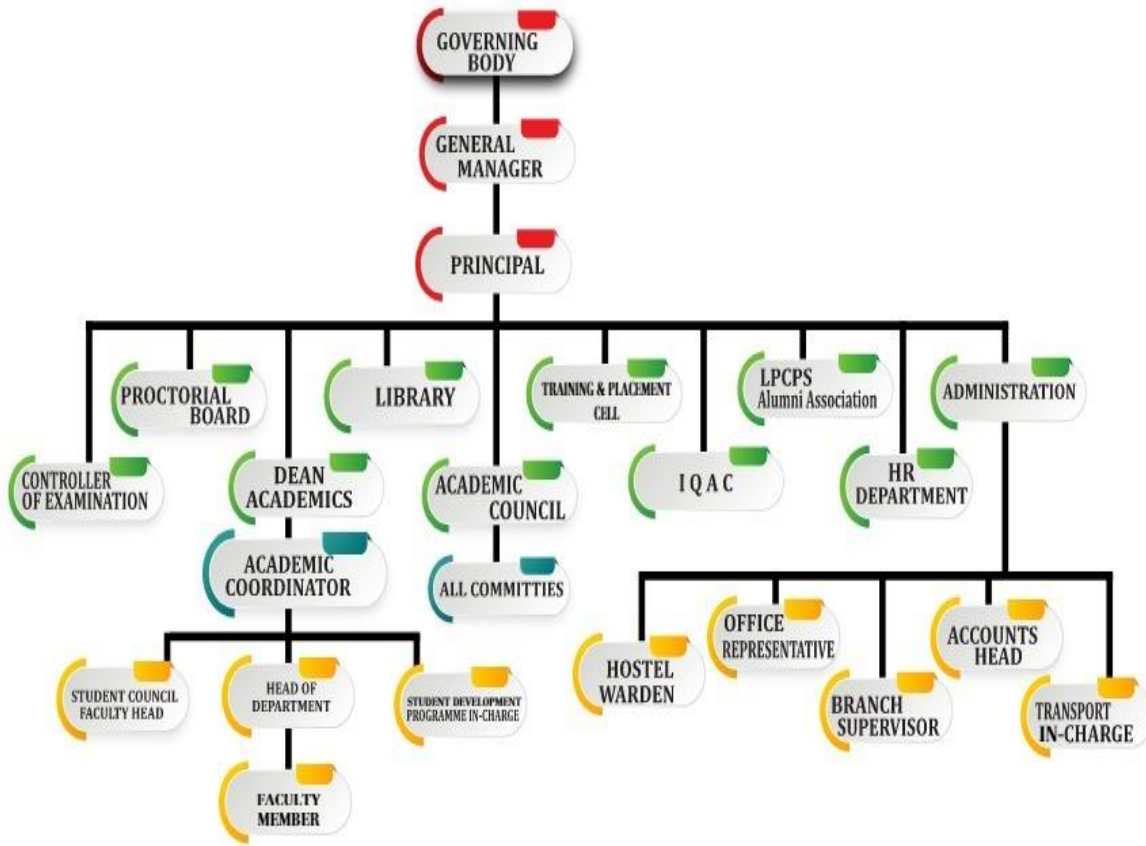

As the IQAC head, I believe that candidates must have a strong grounding in the content knowledge necessary to guide learners and must also possess the skills necessary to respond to the needs of those learners.

As we have recently been shown, this is a time when old assumptions have been thrown out the door. At the end, what you are doing is important, and even though these two years have taken a dramatic turn, know that your chosen field has become even more important, and what you choose to do can and will make a difference.

Outset

The secret of economic development has been persistent quality research; it unfolds new truth for any topic. Research is key factor for innovation and development and it has been found that the quality of Research-output has been far from the much needed standards. A Research-work must act as a catalyst for further researches to be undertaken in the said field. The quality of research depends on the understanding of the Research-problem and the output is significantly based in the appropriate research-tools used for the data-collection and its analysis. Management, Humanities or Social-science Research assumes significance from the nature of problem being identified and the possible solutions, since, it has a larger impact on the day to day activities of the common-man. Hence, a work carried out with accuracy in the results majorly determines the future of this knowledge-driven world.

In this backdrop, Lucknow Public College of Professional Studies takes the initiative to organize One Week National Faculty Development Programme on 'Research Methodology & Quantitative Data Analysis Using SPSS & AMOS' and invites Faculties and Research Scholars in all streams dealing with social-issues and all the aspiring researchers to participate and deliberate upon the contemporarily relevant issues.

1. To understand what research is? And develop capacity for conceptualizing various research processes and gain insight into research phenomenon among new bees.
2. How to do review of literature to enhance skills to prepare an appropriate research design, including formulating of research questions and hypotheses, collection of data and its basic and advance analysis through SPSS & AMOS.
3. To provide greater exposure of various research methodologies available for conducting research.
4. To improve capacity of attendees for writing Doctoral thesis and research papers in reputed journals.
5. Application of research methodology in social science and management.

STAFF DEVELOPMENT PROGRAMME

“MENTORING AND COUNSELLING... *key to holistic education*”

Resource Persons:

Prof. S. Sen Sharma

Prof. Shailesh Kaushal

Prof. Sanjay Medhavi

Venue: BJAMC Lab (Block B) - Lucknow Public College of Professional Studies Campus

16th September, 2019

“Teachers who make the time to prepare themselves to be mentors tend to have more satisfying and productive mentoring relationships than those who do not.”

Teachers have multiple roles to play; and to fulfill their roles professionally, they need competence in handling their responsibilities towards students in a variety of situations inside and outside the classrooms. Providing guidance and counselling is increasingly seen as a key component in ensuring the holistic development of students. Teachers who prepare themselves as mentors increase their potential to enhance student growth and development, help students maximize education experiences, and enrich their own teaching experience and professional development. Mentors often report that they gain exposure to new and diverse perspectives, improve coaching and listening skills, find work more meaningful and satisfying, hone desired leadership skills, and often become reengaged professionally.

Becoming a skilled mentor and counselor is a life-long process that places a premium on self-awareness, on a keen desire for personal growth, a sustained passion for learning, and an openness to feedback and the consequent call to adapt and change. Central to this evolution is the core realization that no two people are alike and no two people understand language in the same way – one’s understanding will always be linked to one’s personal experience of the world. A good educator knows this, and will not try to fit students into a preconceived mould/s but rather help them focus on their emotions, experiences and behavioural patterns to bring about growth and development.

The modern day educational system has advanced for the emotional, physical, psychological well-being of the child. Hence, the Lucknow Public College of Professional Studies, Lucknow organized a one day Staff Development Programme on “Mentoring and Counselling...key to holistic education” on 16 September 2019.

26th JANUARY 2020

The Constitution of India, which was adopted by the Constituent Assembly on November 26, 1949, came into effect on January 26, 1950. This completed India's movement towards becoming an independent republic with a democratic government system. January 26 was also selected as the day to mark Republic Day because it had been on this day that the Indian National Congress (INC) proclaimed the Declaration of Indian Independence in 1929. This was opposite to the 'dominion' status offered by the British.

LPCPS celebrated 70th Republic Day on 26th January, 2020. Faculties, staff and students got sweets and flag hosting performed by Dean Academics Dr. LS Awasthi.
