## Liquid Waste Management

Effluent Treatment plant commonly Known As ETP plant , is a waste water treatment process (WWTP) used for treating the waste of chemistry lab . The college uses Sodium Bicarbonate to neutralise the toxicity of chemicals before thrown away. We pour adequate amount of water in the pit after practical classes in lab.

## Waste Management Workshop

**Date:** 23/09/2019

**Venue:** Lucknow Public College of Professional Studies- Conference Hall

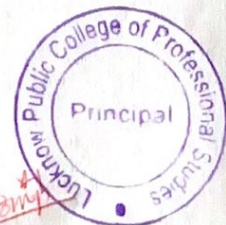

**Number of Students Participated:** 170

SMS Watergrace Mediawaste Management Pvt. Ltd. organized a one day workshop for LPCPS students. This workshop was conducted on 23/09/19 at LPCPS- conference hall. The objective of this workshop was to spread awareness about Solid, Liquid and E- waste management. The

speaker was **Mr. Aniket Joshi**, from SMS Watergrace Mediawaste Management Pvt. Ltd. He highlighted the importance of waste management, personal hygiene and cleanliness and he encouraged the students to take the initiative to educate around the people for the importance of waste management.

During the session, students learnt about the different types of waste and methodologies of waste management and they learnt about how to dispose of waste properly and what can happen if the waste is not disposed properly. At the end of the session students enjoyed a quiz, a reflection on the topics related to waste management.
