MESSAGE FROM THE FOUNDER MANAGER

“

“Quality education is the dire need of all times but quality should be understood in terms of meaningful adjustment in the society. We experiment with the most effective teaching practices. Students are trained to learn through interaction with various aspects of life. We maintain the most effective teaching approach, techniques, ideologies, ambiance, innovations and their adaptation to specific circumstances, which are to be encouraged to a greater degree.

I need to speak that such a time is slouching towards us as we have not yet identified it and we don't know what other jobs will exist according to future needs. We can easily understand that time will change all modules and methods. Entire human race is undergoing a big change. As an institution, we all evolve beyond providing education and handing over certificates and degrees. Teachers ensure that students are harnessed with the skills needed for the future. Pedagogical innovations are in routine, thinking over national and global levels.

Today we are living in an era of rapid flux and baffling complexities. Students are taught the original aspect of humanity that transcends human soul irrespective of gender, race, color, caste, creed and religion.

Human race is one. For collective growth, oneness of mankind must be nurtured in individuals' mind. We educate our students in such a way as they realize oneness of mankind. A student's life will be adjudged according to his meaningful adjustment in the society which is the ultimate aim of education.

Being educated in real sense is being human in true sense. This is the essence of quality education.

At last, I would say that education does not mean piling of information and worldliness only, but to attain wisdom- a light, that does a lot for the sake of mankind. Here at Lucknow Public College of Professional Studies, strenuous efforts are done by skilled educators to ensure the totality of education.”

MESSAGE FROM THE DEAN ACADEMICS

Dear Students,

I hope that you and your families are healthy and that you have been able to find new ways to appreciate and care for one another during this unprecedented time. Since March 2020, the world has suffered under the weight of a global pandemic that locked down government offices, service organizations, schools, and businesses. The effects of the pandemic on everyone have been hard and painful.

Despite the pandemic, we were able to graduate eligible candidates in the 2020-2022 academic years. The Internal Quality Assessment Cell at LPCPS in coordination with the placement cell, conducted placement drive for the students who lost the bread earners of their family in the pandemic.

At the end, what you are doing is important, and even though these two years have taken a dramatic turn, know that your chosen field has become even more important, and what you choose to do can and will make a difference. Whatever you do, you still leave this place prepared and empowered to make a contribution. You are the future leaders and the society look back to you. And I am optimistic, because of all of you. And I know those who follow you will look back at this time with pride and thankfulness.
