

## SAMPLE OF INNOVATIVE TEACHING PEDAGOGY

## INNOVATIVE TEACHING

### LEARNING TEAMWORK AND COORDINATION:

Learning teamwork and coordination is important because it can help you develop skills that are useful in many areas of life, including school and work:

- **Problem solving:** Working in a team can help you develop problem-solving skills by combining different skills and experiences.
- **Communication:** Teamwork can help you learn to communicate effectively with others.
- **Critical thinking:** Teamwork can help you develop critical thinking skills.
- **Creativity:** Teamwork can help you generate new ideas and perspectives.
- **Efficiency:** Teamwork can help you complete tasks more efficiently by dividing work and sharing responsibilities.
- **Productivity:** Teamwork can help you increase productivity.
- **Morale:** Teamwork can help you feel more satisfied with your job and boost your morale.
- **Risk-taking:** Teamwork can help you take calculated risks and pursue new opportunities.
- **Accountability:** Teamwork can help you feel a sense of shared responsibility and accountability for the team's success.

## Blind Fold walk

**Blindfold walk games** are team building activities that can help improve communication, teamwork, and other skills.

**Rules:** Participants are split into pairs, with one person blindfolded and the other guiding them through an obstacle course or path.

## Straw Tower

**STRAW TOWER:** Slowly work into a more narrow straw, eventually maybe using a twisty or bendy thin straw to increase the difficulty.

**Rules:** Provide the group with a pile of drinking straws, paper clips, pipe cleaners, scissors, and a ball of string. Inform the group that their task is to use these materials to build a tower that is as tall as possible without having it fall over. Give the group a time limit to complete the task.
