Sample files for Interviews / Pre- Placement Activity

We organise mock interviews and pre-placements for better preparation of future career and job opportunities.

Interviewing skills are students' ability to interact with the employer or interviewer and show them why they are the best-fit candidate for the job role. Students' interview skills give an interviewer insight into how they will communicate in the workplace and solve problems.

Pre-placement training helps in formulating an effective CV which not only looks professional but also speaks for itself. They also help in training the student for the interview process as well as group discussion.
