6.2.3 Implementation of e-governance in areas of operation

- 1. Administration**
- 2. Finance and Accounts**
- 3. Student Admission and Support**
- 4. Examination**

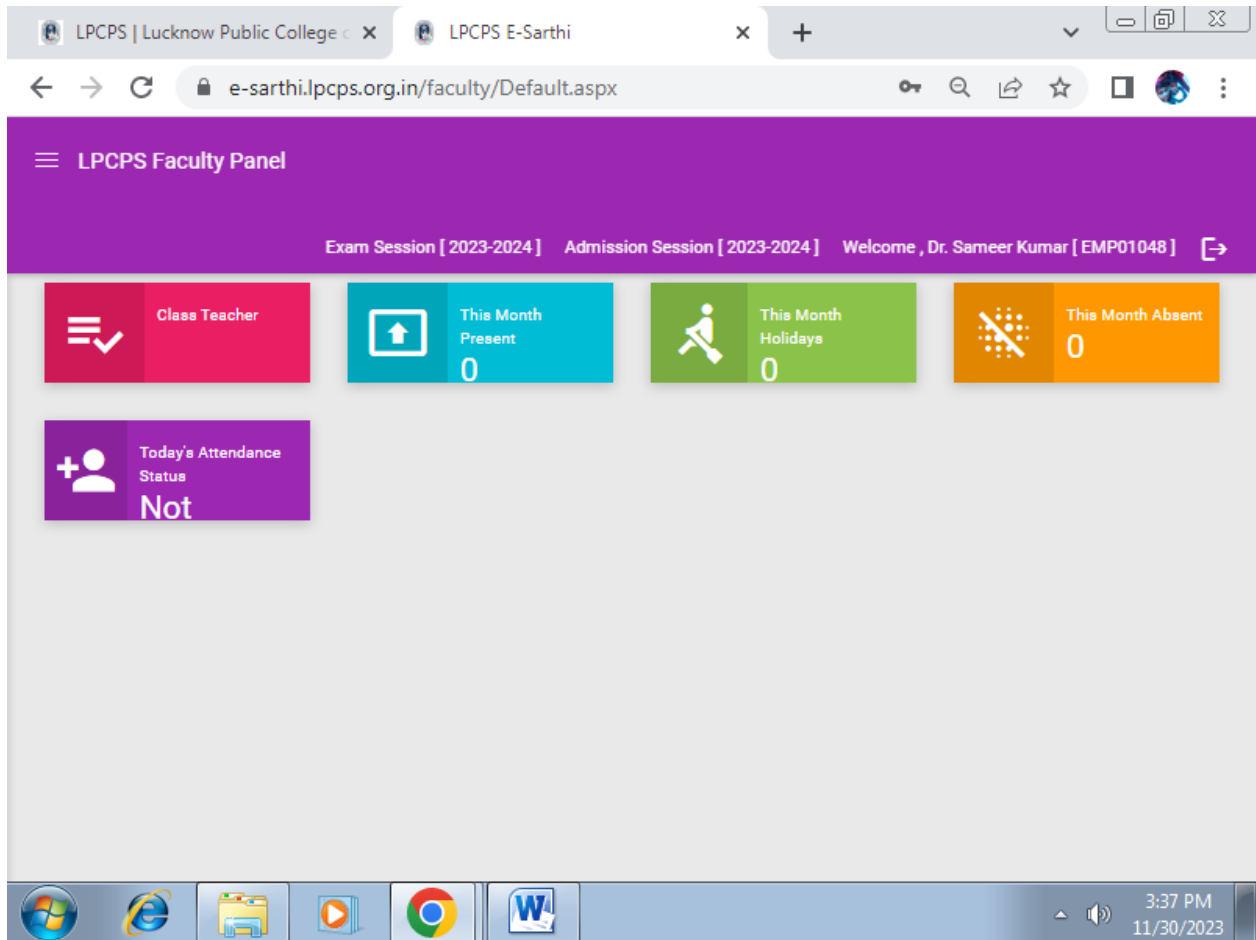

LPCPS believes in a simple and automated system to provide governance to achieve different elements of the academic system. Various functions to be implemented for effective planning, development, administration, management of finances and accounts, and providing support to the students such as the student details, sharing of notes, organizing the examinations and evaluations, etc. are facilitated through ERP. An ERP portal by the name E-sarthi is being used at LPCPS. Each faculty has their own login ID and password through which they can access their profile, monthly attendance, papers allotted, and class-student details. All MCQs and marks of the internal examination are to be updated on ERP. It also helps to generate various reports related to students. The teachers may also upload notes on ERP for various subjects and give assignments to students. Students also have access to the ERP portal wherein they may access their internal results, give MCQ and submit assignments. Similarly, students may also access their profiles through login IDs and passwords, wherein they may get access to the subject notes, their marks, and so on. It eases the entire administration of teachers and students related attendance, marks, and exchange of notes. Each tab is separately designed and implemented through an ERP system. All faculties and students use the ERP system for providing E-governance. Transparency of everything done in the college is exhibited through the ERP system. The ERP system has been built with an interface to the college website where notes may be shared on the college website as well.
