## ABOUT THE SEMINAR

"Starting Up" is a seminar in which participants will learn how to **think and act like successful entrepreneurs**. The students will be provided with the most important aspects and tools in entrepreneurship. In addition, **essential management knowledge and skills** (e.g. market & competition analysis, marketing, financial planning) will be taught. The participants will develop their own **business ideas in interdisciplinary teams** and prepare a **business plan** (format: pitch deck) for their respective ideas.

Our goal is to inspire and educate tomorrow's entrepreneurs by providing hands-on and digital entrepreneurship education in theory and practice for students of all study backgrounds.

The seminar covers six modules that are based on the **Business Model Canvas**. It will be taught in a **blended learning format**, i.e. every week, new online content (videos, downloadable slides, forums and quizzes) will be available from the platform Moodle which is complemented by an offline kick-off session, mid-term presentations as well as group assignments leading up to a final presentation where the students present their business plan.
