| 1      | Shaurya Srivastava ( STU05770 ) | BCA NEP 2023 / BCA Sem I / B | Male   | 17/Oct/2024 | I'm struggling to understand a concept in class.    | Don't worry, we've all been there! First, review your notes and textbook - sometimes a second look can help clarify things. Try explaining the concept to a friend or family member - teaching someone else can help you understand it better. You can also ask your teacher or classmates for help - they might be able to explain it in a way that clicks with you. Online resources like Khan Academy, YouTube tutorials, or study groups can be super helpful too. Break down the concept into smaller parts and focus on one bit at a time. Practice, practice, practice - the more you practice, the more comfortable you'll become with the concept. And don't hesitate to ask for extra help from your teacher or a tutor if you need it. You can do this! | Edit / Delete |
| 2      | Rahul Verma ( STU05775 )        | BCA NEP 2023 / BCA Sem I / B | Male   | 17/Oct/2024 | I'm having trouble staying motivated to study.      | First, set clear goals for what you want to achieve - having a purpose makes a big difference. Break down big goals into smaller, achievable tasks, and reward yourself when you complete them. Create a study schedule and stick to it - consistency is key. Find a study buddy or join a study group for support and accountability. Change your study environment sometimes - try a library, cafe, or park. Use the Pomodoro Technique: 25 minutes of focused study, then a 5-minute break. Remind yourself why you're studying in the first place - your goals and dreams are worth it!  | Edit / Delete |
| 3      | Pranav Trivedi ( STU05779 )     | BCA NEP 2023 / BCA Sem I / B | Male   | 17/Oct/2024 | I'm procrastinating and putting off my assignments. | Okay, let's tackle this beast. First, identify why you're procrastinating - is it fear, boredom, or something else? Address that issue, and get moving! Break down your assignment into tiny, manageable tasks, and do the hardest one first. Set a timer for 25 minutes and work without any distractions. Take a break, then get back to work. Create a schedule and stick to it - consistency is key. Tell a friend or family member about your goals, so they can keep you accountable. And, reward yourself when you complete tasks - you deserve it!   | Edit / Delete |

| 1      | VAIBHAV AGNIHOTRI (STU05803) | BAJMC NEP 2021 / BAJMC Sem I / A | Male   | 04/Nov/2024 | Comparing self with others      | Shift comparison into self-awareness, not self-pressure. Each night, sit quietly and ask: Was I a little more honest than yesterday? Did I act with slightly more courage or patience today? Progress is not about being ahead of others; it is about being more aligned with your own dharma than yesterday. Others' journeys are shaped by karmas you do not carry. Your only true measure is inner peace + sincere effort. Remember: When the soul is aligned, growth happens silently. When the ego compares, peace is disturbed. | <a href="#">Edit</a> / <a href="#">Delete</a> |
