### Day 3 (31/ March/ 2023)

The Third day Speaker Mr. Chetan Khanna created an awareness on the stock market as it is an important instrument to measure the economic condition of a country. It is referred to as the "heartbeat of the economy" or "economic mirror," reflecting the state of a nation's economy and is the secondary market where investors can buy or sell shares publicly. The young generation has faced many financial problems due to a lack of financial literacy. They have little financial knowledge of the norms and trends of different markets and how to make good investment decisions. The main goal of this workshop is to discover the variables that influence students' exchange participation and whether there are statistically significant differences in perceptions of people of different genders and levels of education about the impact of participating in exchanges.
