Special Sessions:

"HYGIENE AND WASTE MANAGEMENT PROGRAM" 2022 BY LUCKNOW PUBLIC COLLEGE OF PROFESSIONAL STUDIES

27/Apr/2022

Waste management and hygienic conditions is essential for preventing and for protecting human health during all infectious disease outbreaks, including coronavirus disease 2019 (COVID-19). Ensuring evidenced-based and consistently applied WASH and waste management practices in communities, homes, schools, marketplaces, and healthcare facilities will help prevent human-to-human transmission of pathogens including SARS-CoV-2, the virus that causes COVID-19.
